

True Golf Company

Jason Goldsmith
jason@truegolfcompany.com

San Diego, CA
760.415.4864

The NASM-CPT certification
is proudly accredited by the NCCA.

True Golf specializes in putting and offers golfers at all levels the best putting solution available today: **Custom Edel Putters** and putter fitting process, **SAM PuttLab** putting analysis and **AimPoint** computer modeled green mapping and reading technology. In addition to green reading clinics and custom putter fittings and sales, True Golf also offers aiming demonstrations and putting instruction as well as private clinics.

Several years ago, Jason developed and patented a unique alignment system for putters using parallax. This invention led him to David Edel, of Edel Golf, and a collaboration that resulted in the EyeZRite putting alignment aid. Jason is also a PGA Tour representative for AimPoint Technologies and Edel Golf, representing both organizations on the PGA Tour's West Coast Swing.

Since beginning his relationship with AimPoint and Edel Golf, Jason has conducted numerous fitting and clinic events around the United States.
